LEEDing the Way to a Healthier Construction Industry
Emma Helm, @emhelm24, Program on the Environment, University of Washington
Site supervisor: Colton Twiddy, Mortenson Construction
Faculty advisor: Bill Bender, Construction Management, University of Washington

• The construction industry is a big contributor to pollution around the world

• The aim of this project is to understand LEED Green Building Certifications and how they can be more successful

• Incentives from the government can increase the use of green building practices
