

**Marjorie “Maggie” Mooney-Seus** is Communications Program Manager for NOAA Fisheries’ Alaska Fisheries Science Center. She manages a staff of six, four employees and two contractors, who are responsible for conducting and coordinating constituent relations, education, outreach, publications, graphics department, media relations and web/social media for the center. Before joining the Alaska Fisheries Science Center, Maggie served as communications officer for NOAA Fisheries’ Greater Atlantic Regional Office in Gloucester, MA.

Prior to NOAA, Maggie was a consultant with MRAG Americas. In that capacity, she organized workshops and published reports on national and international marine resource management issues including IUU fishing, coastal monitoring indicators, ecosystem-based fishery management, the precautionary approach and the effectiveness of fisheries certification programs for Federal government agencies, international eNGOs and the World Bank. She also helped establish the New England Aquarium Conservation Department, serving as Department Manager for seven years. She has held various private sector communications positions including MA/RI media spokesperson for a top 25 national bank, marketing coordinator for a Fortune 500 corporation and print and broadcast journalist. Maggie has a Master’s degree from Tufts University in Urban and Environmental Policy and a Bachelor’s Degree from the University of Massachusetts in Communications.
