Autumn 2022
CAPSTONE SYMPOSIUM

Wednesday, November 30, 2022 Online, 4:30 – 7:30 pm

Wednesday, December 7, 2022 In-Person, 5:00 – 7:30 pm

UW School of Aquatic Fisheries & Science
FSH 102 & Lobby

The Capstone experience is a three-course series (ENVIR 490, 491, 492) centered on a quarter-long project-based internship with a community site partner. Capstone sites range from community-based nonprofits and government agencies to faculty research projects and private sector initiatives. With the mentorship of a faculty advisor and the support of the site supervisor, students gain valuable hands-on experience, explore career possibilities, and build a wide spectrum of professional communication skills.

Share your thoughts on Twitter!

Students will be live-tweeting all sessions so if you miss one, follow the updates. If you tweet, we encourage you to share what you learn and use the hashtag, #POEcap.
