**Project Description:** *Write a brief description of the project or course in which you will participate.*

What will you be doing?

When will you be doing it?

Where will you be doing it?

**Learning Objectives:** What skills or knowledge area(s) are you seeking to learn or improve? What questions are you trying to answer? How do these objectives relate to your environmental studies degree plan?

**Learning Activities:** From the brief description of the project provided above, identify specific activities you will be engaged in to reach the learning objectives described above.

**Resources:** What people, places, and things (i.e. books, newspapers, software) are needed for you to reach the learning objectives described above?

**Evaluation:** What progress or change will you and your faculty advisor be looking for? By what criteria are you going to evaluate if you have met the learning objectives described above? Will you write papers, a journal, develop a website?
